## ABOUT MARCUS

Marcus Margulies isn't boasting when he says, "Our store carries more tourbillons and minute repeaters than any other in London." Margulies who has spent his entire life in the watch business, retains his enthusiasm for fine timekeepers, but his standards are now so elevated that he's only truly excited by the rarest, most exotic pieces. Mere bling isn't enough, but tourbillons, perpetual calendars and minute repeaters are.

Among the store's treasures are probably the largest selections of Franck Muller complications and Hublot Big Bangs in Europe. Extensive stocks of Audemars Piguet (the hardest to find Royal Oaks), of course, Franck Muller, Hublot, Urwerk, MB&F and Greubel Forsey, among others, are offered in tranquil surroundings, which offer respite from the bustle of Bond Street. ## HUBLOT X ARTURO FUENTE - FORBIDDEN X WATCHED LTD EDITION

FOR ALL THE CIGAR AND WATCH LOVERS this one's going to be a good one - Hublot has just released a limited edition watch series with the legendary cigar maker Arturo Fuente - it pays a tribute to the brand and its most iconic cigars, and that's where it gets the name 'Forbidden X'. We shot a couple of models while we were in Qatar during the Doha Jewellery and Watch Expo 2015.

The model on the right is the chronograph. Carrying the usual Classic Fusion design case and chrono movement it's not that different from the regular pieces from the first look. However if you look closer at the dial you'll notice that it's made of some unusual material - and that's because it has a genuine tobacco leaf! The 45mm size makes it perfectly wearable, and the brown-vintage-like colour scheme is subtle yet very unusual for a wristwatch.

## SHEIKH FAISAL MUSEUM

In the world there are collectors, super collectors and then there is His Highness Sheikh Faisal Bin Qassim Al Thani, one of the most prominent business leaders in the Middle East and founder and patron of the Sheikh Faisal Museum. Home to one of the greatest private collections in the world, the Sheikh Faisal Museum has become an international draw-card for tourists and academics alike since officially opening its doors to the public in 1998. And last month Anish was lucky enough to be invited for a private tour. Read more about his visit and view the pics at [watch-anish.com](http://watch-anish.com). ## URWERK UR1001 TITAN

URWERK HAVE DONE THE UNTHINKABLE and taken their pocket watch and converted it into a wristwatch. The dial features Urwerk's typical rotating satellite hours system, as well as uses the same principle to display month and date. There's no way we can explain

to you the reasoning behind it, it's just something you'll either fall in love with or really won't get. It does look pretty ridiculous at first, but if you're an eccentric billionaire Iron Man or Batman fan this one's for you! Find out more at [urwerk.com](http://urwerk.com)
