MB&F MUSICMACHINE 3

Innovative watchmaker MB&F celebrates its 10th anniversary with MusicMachine 3, the third incarnation of its incredible music box series, with this latest edition inspired by the *Star Wars* movie saga's TIE-Fighters. With its twin cylinders gorgeously engineered in the traditional manner of old school music boxes, MusicMachine 3 plays the unforgettable theme tunes from movies such as *James Bond*, *Mission Impossible*, *The Godfather*, *Merry Christmas*, *Mr. Lawrence*, the classic TV show, *The Persuaders*... and, of course, *Star Wars*.

Available in a limited edition of 99 pieces, including 33 pieces with white finish, 33 in black and 33 in 'chrome', MusicMachine 3 may appear to come from a galaxy far, far away but its engineering and manufacturing are the works of Reuge, the only remaining luxury music box manufacturer in the world. Impeccably finished, MusicMachine 3 features all the traditional elements of a beautifully arranged, high-end mechanical music box. Its striking lateral wings play a vital role in transmitting sound vibrations from the twin movements to the naturally amplifying resonant base, manufactured by JMC Lutherie. In other words, you'll be able to fully feel the force as well as hear it.
