VOL. 4 ISSUE 4 AUTUMN 2015

IN PARTNERSHIP WITH MARCUS WATCHES

Stop & watch!

LONDON'S MOST WELL STOCKED WATCH EMPORIUM, MARCUS WATCHES, GIVE US THE SCOOP ON THIS AUTUMN'S MOST COVETED TIMEPIECES...

PRIZED POSSESSION

This season we're coveting this Greubel Forsey.

Model: Tourbillon 24 Secondes Vision.

Materials: 18ct white gold case. The dial is also 18ct gold and given a special unique treatment of galvanised palladium plating to get to the finished colour. The hour markers are engraved

into the dial and then enamelled.

Size: 43.5mm.

Movement: GF01r in-house manually wound double tourbillon.

Complications: 24 second double tourbillon.

Price: Available on request.

ON OUR WISH LIST

URWERK UR-210

The UR 210 highlights and monitors the symbiotic relationship between man and his mechanical watch. This quasi biologic machine could reveal more about you than any other object in your possession.

MB&F

To celebrate the brand's 10th anniversary they've introduced Melchior, an impressive kinetic robot that also happens to be a 480-component mechanical table clock.

RESSENCE TYPE 3

This piece transports time from the dial to the crystal. The orbiting indications are bathed in a fluid that refracts light like air does, so the indications appear to be displayed directly onto the sapphire.

PRICES AVAILABLE ON REQUEST FROM MARCUS WATCHES.
